5X1	* Comment. The report indicates that there were no apparent changes	
	in the occupation of the military installation at behavin,	25X1
	The Fluctuating number of troops occupying the barracks installations as	23/1
5X1	chserved by may be explained by the fact that	
	these units undergo surver training and are rotated to troop training	
	grounds. Thus for instance the unidentified unit of the 10th 36s HL Regt	
	of the IX Mtz Mifle Jorgs which loft the Mirdenburg Kaserne on 18 September	
	1952 is probably connected with noter vehicle conveys of units from Schwerin	
	scen southwest of littrock on the same day. The observations made at Ocerries airfield confirm that the unidentified AFA regiment and the uniden-	
	tified engineer battalion of the IX Mtz Rifle Corps are stationed there.	
5X1	It is noteworthy thatobserved AT guns and howitzers at the	
.J. A. I	barracks installation of the airfield. This indicates that elements of	
	the Ath Eds AT Arty Irig (US) of the IX Mtz Wifle Corps are stationed there.	
5X1	Most reported belong to Soviet units stationed at	
	Gelwerin.	
:5X1	it is believed	
	that the 75th (Mr') Tank SP Regt of the 95th Gds Mtz Rifle Div was involved.	
5X1	Comments from 500 to 1,500 men have allegedly been observed in the	
.J/\ I	icreer DAF building. The units quartered there probably belong to the	
	91 th Gds Ltz Rille Div. The statement made by	25X1
5X1	of paragraph 12 of the present report that only 200 men are	20,(1
	quartered in the former DAF building is the lowest estimate received thus
